One of the authentic and unique sides of Bali is a traditional Balinese dance performance, which is called Barong Dance Bali. The Barong dance is the classic story of good (The Barong) triumphing over evil (The evil witch Rangda). The Barong is a large lion type creature played by two men, Rangda is the epitome of evil with long fingernails and droopy breasts. The Barong is going about his business until he is interrupted by Rangda. Ultimately a battle ensues and the Barong’s followers begin attacking Rangda with their Keris (daggers). Rangda, being a witch, is able to use magical powers to turn the daggers against their owners, who fall into a trance and try to stab themselves.

SANGHE MONGKEY FOREST

www.tourjavavolcano.com

Sangeh monkey forest is a popular place that is much sanctified for Balinese people, which is the habitat for hundreds of monkeys which are popularly called sangeh. Sangeh is located in Sangeh Village, precisely on Brahmana Street, Abiansemal District, Badung Regency. Sangeh is a highly recommended Natural Park Object which is a unique tourist destination to see adorable monkeys. Sangeh which has a unique attraction because there are many monkeys as their habitat in a large area that has historical or mythical stories, namely the Lanang Wadon Tree, and there are also temples that are very sacred to Hindus, namely Melanting Temple and Bukit Sari Temple and there are hundreds of them. Long tailed macaque that has cute behavior and is arguably quite tame.

TEGALLALANG RICE TERRACE

The Tegallalang Rice Terraces in Ubud are famous for their beautiful scenes of rice paddies and their innovative irrigation system. Known as the subak, the traditional Balinese cooperative irrigation system is said to have been passed down by a revered holy man named Rsi Markandeya in the 8th century. Tegallalang forms the 3 most splendid terraced landscapes in Ubud's shared region, with the others being in the villages of Pejeng and Campuhan.

TIRTA EMPUL TEMPLE

Tirta Empul Temple is a Hindu temple in the middle of the island of Bali, Indonesia, to be precise in Manukaya Village, Tampaksiring District, Gianyar Regency, which is famous for its holy water where Balinese Hindus seek purification. Next to the location of the Tirta Empul temple is the Indonesian presidential palace called the Tampak Siring Palace. Due to the presence of a presidential palace next to the location of the temple, it is the main attraction of Tirta Empul Temple and differentiates it from other temples on the island of Bali. Another uniqueness of the Tirta Empul temple is also due to the natural spring that comes out of the temple area. The water from the springs is then channeled to the outer area of the temple through showers, which amount to 26 showers. The water mix is divided into 3 pools. The westernmost pool has 13 showers, the middle pool has 8 showers and the easternmost pool has 5 showers.

TEGENUNGAN WATERFALL

Tegenungan Waterfall is a waterfall in Bali, Indonesia. It is located at the Tegenungan Kemenuh village, in Gianyar, North from the capital Denpasar and close to the artist village of Ubud. The waterfall is isolated but has become a popular tourist attraction. It is one of the few waterfalls in Bali that is not situated in highlands or mountainous territory. The amount and clarity of the water at the site depend on rainfall but it contains green surroundings with fresh water that can be swum in. The waterfall includes varying highs that can be climbed after the descent down stairs to reach it. This attraction also features a viewing point to the jungle and waterfall at the main entrance.

RAJA LIMA

Warm Regards

www.tourjavavolcano.com

Raja Lima in Nusa Penida – Bali, which is one of the popular tourism spot that has become many tourist destinations, whether local or foreign. In addition to the formation of tiny islands and the very blue coastal water that is similar of the sight of Raja Ampat in Papua. A relatively famous spot here is the Tree House of Molenteng, to get there, we have to go down a staircase from a cliff that looks about 120 feet long. From the Tree House, we can still climb a hill about 30 feet (10 m) to get a photos spot with a great view.

TELETUBBIES HILL

Bukit Teletubbies or Teletubbies Hill as a place that is fun and nice prewed. This Hill was given the name because of the Teletubbies site is almost like shooting film Teletubbies. Where there are high mounds that dotted the grass and plants are green and the distance between the adjacent hills. The shape is also a smooth half circle. This hill of limestone covered with thin soil, so the grass can grow there. This Is The Teletubbies Hill Nusa Penida. The grass that grows above the Hill gives a beautiful green shades on the hills. Starting to tour Nusa Penida is so nice when visiting during rainy season. Because, at that time, the grass grows lush covered hills. While the best time to see the view at the morning and the afternoon. If during the day, hot weather and there is no shelter. The Uniqueness of the Teletubbies Hill Nusa Penida when to take pictures or view Teletubbies Hill. From the Teletubbies Hill, you can see the houses around Nusa Penida and small that look an awful lot. From the top of the Hill of course this very charming natural scenery and Add Your admiration.

BROKEN BEACH & ANGEL BILLABONG

The name Pasih Uug or Broken Beach (broken beach), does not mean it was damaged by human activity, but the view that is presented is as if its nature was damaged, as seen on one of the cliffs in this location. At the bottom of the hillside that juts into the sea there is a giant gaping hole or tunnel as high as 50-200 meters, from this hole sea water enters a tunnel and seawater is trapped in a rock surrounded by cliffs into a giant pool and seems to make a new beach.

Angel's Billabong is a place where the mouth of a river or a dead end of a river before the water directly touches sea water, the river water forms a pool surrounded by coral cliffs. It's very important to be remembered and very important to note, visiting Angel's

Billabong Nusa Penida, if you want to take a bath or swim in the pool, you must first look at the wave and wave situation, if the waves are small and the sea water is receding, is the most ideal time to bathe in these natural pools, but if the tide is high and the waves are big. And highly recommended that it is even forbidden to take a bath in that place, because the waves at any time can enter the pool and can hit and drag visitors, this will certainly be very dangerous, and it would be more ideal to relax, sit on the reef while enjoying the beauty around it.

KELINGKING BEACH

Kelingking Beach is one of the favorite tourist destinations that gets the attention of tourists, both local and foreign. Naturally, this beach does have amazingly beautiful views. Not only does it offer seductive white sandy beaches, but also a vast ocean that can be seen from the cliff top area. The color of the sea is dazzling blue, big waves howling

in the distance on the beach in the shape of a little finger (which is the origin of the name), it will add to the exoticism of this place.
