MERBABU BROMO IJEN 6 Day / 5 Nights

Overland tour package by Bromo Indonesia Travel Indonesia start from Yogyakarta (Adi Sucipto Airport and Drop off Surabaya Airport.

Merbabu - Bromo – Ijen Tour Package with a duration of 6 day and 5 night is a natural exploration of various interesting spots along Jogjakarta to Banyuwangi. Witnessing the charm of the sun rising on Mount Merbabu , Bromo, and capturing the moment of the Blue Fire of Ijen Crater. First of all, we'll give a brief description of this tour package and then we provide price details and what details are included and are not.

Hunting for local specialties and visiting the local craft and snack center. Learning the culture of the area we visit. Okay now we continue, here is a detailed description of our tour program and some unique and interesting places of this tour package:

MERBABU

Mount Merbabu ([Indonesian](#): *Gunung Merbabu*) is a [dormant stratovolcano](#) in [Central Java](#) province on the [Indonesian](#) island of [Java](#). The name *Merbabu* could be loosely translated as 'Mountain of Ash' from the [Javanese](#) combined words; *Meru* means "mountain" and *awu* or *abu* means "ash".

The active volcano [Mount Merapi](#) is directly adjacent on its south-east side, while the city of [Salatiga](#) is located on its northern foothills. A 1,500m high broad saddle lies between Merbabu and Merapi,^[2] the site of the village of [Selo, Java](#) and highly fertile^{[3][4]} farming land.

Warm Regards

www.tourjavavolcano.com

There are two peaks; *Syarif* (3,119 m) and *Kenteng Songo* (3,145 m). Three U-shaped radial valleys extend from the Kenteng Songo summit in northwesterly, northeasterly and southeasterly directions.

BROMO MOUNTAIN

Mount Bromo or in tengger is spelled “Brama”, which is an active volcano in East Java Indonesians. The mountain covers an altitude of 7.500 feet (2.329 m) above sea level and is in four counties, this is, the Probolinggo, Pasuruan, Lumajang and Malang. Over there, you can enjoy some of the tourism spot as like View Point, Mt. Penajakan / Seruni, Bromo crater, Sea of the Sands, Hindu Temple Held by Tengger Tribe from Bromo, Teletubbies Hills, etcetera.

IJEN CRATER / BLUE FIRE

Ijen Crater is the only crater in Indonesia which has a natural phenomenon "blue fire". In the world, there are only two places that have the Blue Fire. In addition to Indonesia, there is also a blue fire in Iceland. Blue fire is happening because of the heat of the crater of Ijen combined with sulfur to create the effect of blue flame on the surface. This phenomenon can only be seen before sunrise. Trekking to the summit of Mount Ijen to see blue fire began at midnight (Ijen open gate: around 01.00 – 01.30 Am.)

At sunrise, tourists can see clearly Ijen Crater Lake. Lake formed from a volcanic eruption about 2500 years ago, has turquoise water. So beautiful. Ijen Crater Lake is a lake that has a high acidity, and is the largest volcanic lake in the world. With a depth of up to 200 meters and an area of more than 5000 hectares.

The best time to climb Mount Ijen is in the dry season, around July to September, when the early morning until the morning. Because, the blue fire appears shy during the rainy season. Meanwhile, during the dry season mount Ijen's blue flames tend to bigger and the mountain path is dry sand, so it's not slippery and safer for visitors.

Warm Regards
